

A Brief Note from Your Conservancy.

Sometimes it's easy to take the good life around Clear Lake for granted.

Yet behind the scenes there's a nonstop effort to preserve our crystal-clear water, strengthen our lakeshore, protect our forests and wildlife, and restore balance to our native prairies and wetlands.

Plus, all around us, the Conservancy maintains a growing network of trails and parks — and coordinates wide-ranging educational and recreational activities, for young and old alike.

The Clear Lake Township Land Conservancy manages all this with dedicated volunteers and experts from all walks of life: Farmers, teachers, nature-lovers, scientists, business people, and just plain folks.

We don't sell Conservancy memberships — just being here makes you a Member — but we need your support. It's your dollars, talent, and time that guarantee a good life we should never take for granted.
