Although they don't speak an audible language, trees can tell us a lot. We can learn about their life—their age, their good years, their bad years, their job, their contribution to the world, and more. Come create with Fremont Elementary's Art Teacher, Erin Seeman. We'll use watercolor spray paint to create positive/negative space masterpieces from items found in nature!

Meet some of the native creatures that live in our watershed with Naturalists from the Pokagon Nature Center. Experience the **live animals** and learn all about the fascinating creatures around us!
